

## Accessibility

V1 September 2023

**Adept**<sup>+</sup>  
Building + Project Consultancy

Adept Building Consultancy Ltd are committed to providing an accessible website that is clear, easy to navigate and informative.

We have considered our use of colour, text and imagery to provide bold and clear content for users. We appreciate we can always strive to improve accessibility and would welcome any suggestions for accessibility improvement. We will aim to incorporate such improvements as soon as reasonably possible. We also incorporate this into our reports and service delivery.

We appreciate it can be hard finding exactly what service you require from a Building Surveying Consultancy website. We can therefore provide a phone consultation to determine your exact requirements in order to provide you with a bespoke service. Our commitment spans wider than our website. Our offices are accessible and suitable for those with varying disabilities. We can also come to you in the event you require this service in an environment where you feel comfortable.

If you need to contact Adept Building Consultancy Ltd for help on accessibility matters or suggestions, please contact our principal, James Cullen, at [jamescullen@adeptbc.co.uk](mailto:jamescullen@adeptbc.co.uk) or on 07471294647.
